WWII Intelligence Expert unravels puzzle at Codsall Arts Festival

The amazing story of how the The Codebreakers cracked one of the biggest puzzles of all time is going to be eloquently unfolded.

Dr Mark Baldwin is one of the foremost UK experts on WWII Intelligence, Bletchley Park, Battle of the Atlantic and The Enigma Machine. He possesses an almost encyclopaedic knowledge and is an experienced and entertaining speaker. He eloquently relates, with exacting historical detail, the story of how The Codebreakers cracked one of the biggest puzzles of all time – the Enigma ciphers.

With logical ingenuity, modern technology and a bit of good luck, the Allies cracked the Enigma ciphers and read thousands of German messages. Afterwards Dr Baldwin will demonstrate one of the few surviving Enigma machines. Prepare to be enthralled.

'Thank you for your outstanding presentation. You did exactly what I had hoped - I could see you had the audience gripped. Professor Anthony Glees, Buckingham University

THE CODEBREAKERS by DR MARK BALDWIN
